

SWIFT POLE CAMERA

The SWIFT Pole Camera delivers rapid visual intelligence in confined, elevated, or hard-to-access areas without exposing personnel to unnecessary risk. Combining low-light color imaging and thermal viewing in a compact, lightweight platform, the SWIFT extends operator awareness while supporting safer tactical decision-making. Its one-handed deployment and collapsible carbon-fiber design make it ideal for patrol, tactical, corrections, and special operations teams.

FEATURES AND BENEFITS

- **Dual-Sensor Camera** – Color and thermal imaging in one system
- **One-Handed Deployment** – Extend and operate quickly under stress
- **Up to 104" Reach** – Inspect dangerous areas from a safe distance
- **Integrated Display** – Instant live video viewing
- **Lightweight Design** – Less than 2 lbs. for easy carry
- **ATAK Compatible** – Stream & share intelligence in real time
- **Low-Light Capability** – Effective operation day or night
