

DESIGNED TO PERFORM.
BUILT TO LAST.

ICMKII- INDIVIDUAL CARBINE

Built on LWRCI's proven short-stroke gas piston system, the IC-MKII delivers exceptional reliability, reduced fouling, and consistent performance in demanding environments. Featuring a redesigned M-LOK handguard, fully ambidextrous controls, and a cold hammer-forged barrel, the IC-MKII provides officers with a durable, mission-ready patrol rifle optimized for modern accessories and suppressor use.

FEATURES AND BENEFITS

- **Short-Stroke Piston System** – Cleaner, cooler, more reliable operation.
- **Fully Ambidextrous Controls** – Efficient handling for any shooter.
- **Cold Hammer-Forged Barrel** – Long service life and consistent accuracy.
- **Free-Float M-LOK Rail** – Ready for lights, lasers, and accessories.
- **Monoforge Upper Receiver** – Enhanced strength and rigidity.
- **Nickel-Boron BCG** – Easier cleaning and corrosion resistance.
- **Suppressor Compatible** – Optimized for reliable suppressed use.
- **Premium Cerakote Finish** – Durable protection against wear and corrosion.

SPECIFICATION HIGHLIGHTS
